## Professional **Aquatic Weed Control** Services

Dear Lake Shore Property Owner,

4-27-2019

The intent of this letter is to notify you that the Pike Chain of Lakes Association has hired Northern Aquatic Services, an herbicide application company for hire, to treat the nuisance exotic Eurasian watermilfoil in the Pike Chain. The Wisconsin DNR is in the process of issuing a permit for whole lake treatments in Eagle and McCarry Lakes along with 3.9 acres in Buskey Bay, 18.8 acres in Hart and 10.9 acres in Twin Bear Lakes. The herbicide I will use, Shredder Amine 4, will be applied to a dose of 0.30 ppm. *Any water usage restrictions for the treated area will be posted on **yellow signs** in that area.*

The permit application requires all property owners to be notified that the permit application is being made and that they may obtain a copy of the application to review. You may view the permit application at the following web site: [www.pikechain.org](http://www.pikechain.org). The planned treatment is in accordance with the Pike Chain's Aquatic Plant Management Plan (APM Plan) to control Eurasian Water Milfoil. Questions concerning the APM Plan can be directed to Al Bochler of the Iron River Area Lakes Association. A copy of the permit may be obtained from the Lake Association.

I am scheduled to make the treatment in late May or June 2019.

If you have any questions you may contact Northern Aquatic Services at 715-495-5252 or the Wisconsin DNR's Aquatic Plant Specialist Mark Sundeen, 715-635-4074. Chemical fact sheets are available upon request.

Sincerely,

Dale Dressel  
Northern Aquatic Services
