Professional **Aquatic Weed Control** Services

Dear Lake Shore Property Owner,

3-12-2022

The intent of this letter is to notify you that the Pike Chain of Lakes Association has hired Northern Aquatic Services, an herbicide application company for hire, to treat the nuisance exotic Eurasian watermilfoil in the Pike Chain. The Wisconsin DNR is in the process of issuing a permit for a total of 38 acres in the Pike Chain including 15.4 acres in Eagle Lake, 13.3 acres in Hart Lake and 9 acres in Twin Bear Lakes. The herbicides I will use are ProcellaCOR EC at 3.5 PDU and 2,4-D Amine at 4.0 PPM ae. Any water usage restrictions for the treated area will be posted on yellow signs in that area.

The permit application requires all property owners to be notified that the permit application is being made and that they may obtain a copy of the application to review. You may view the permit application at the following web site: <http://www.pikechain.org> The planned treatment is in accordance with the Pike Chain's Aquatic Plant Management Plan (APM Plan) to control Eurasian Water Milfoil. Questions concerning the APM Plan can be directed to Al Bochler of the Iron River Area Lakes Association. A copy of the permit may be obtained from the Lake Association.

I am scheduled to make the treatment in late May or June 2022.

If you have any questions you may contact Northern Aquatic Services at 715-495-5252 or the Wisconsin DNR's Aquatic Plant Specialist Tyler Mesalk, 715-635-4227. Chemical fact sheets are available upon request.

Sincerely,

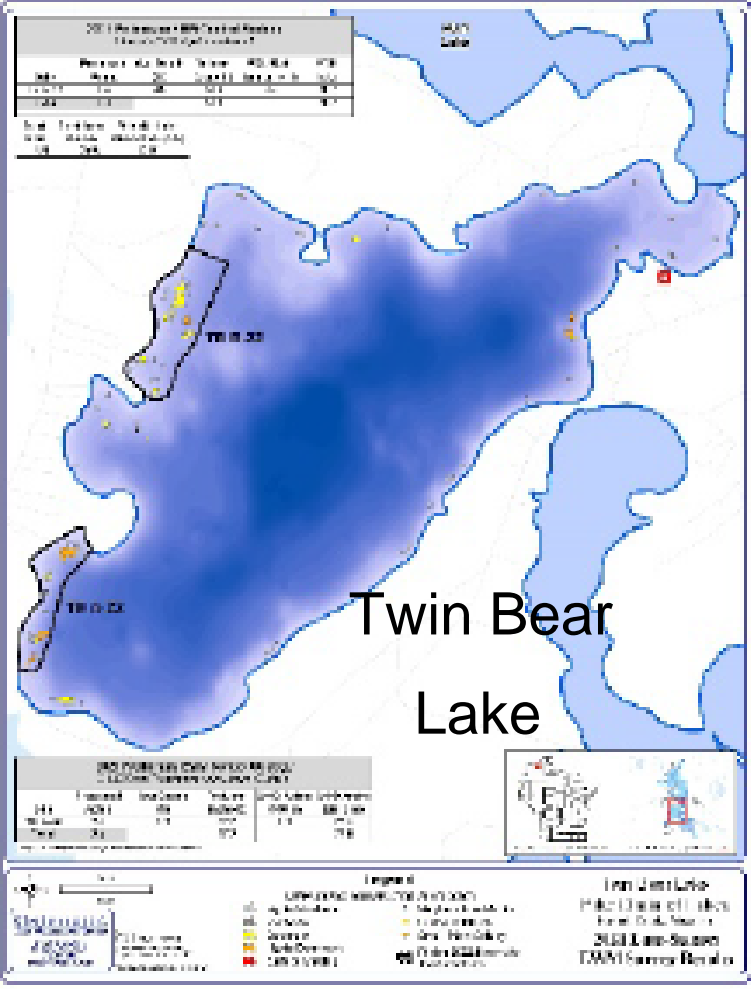

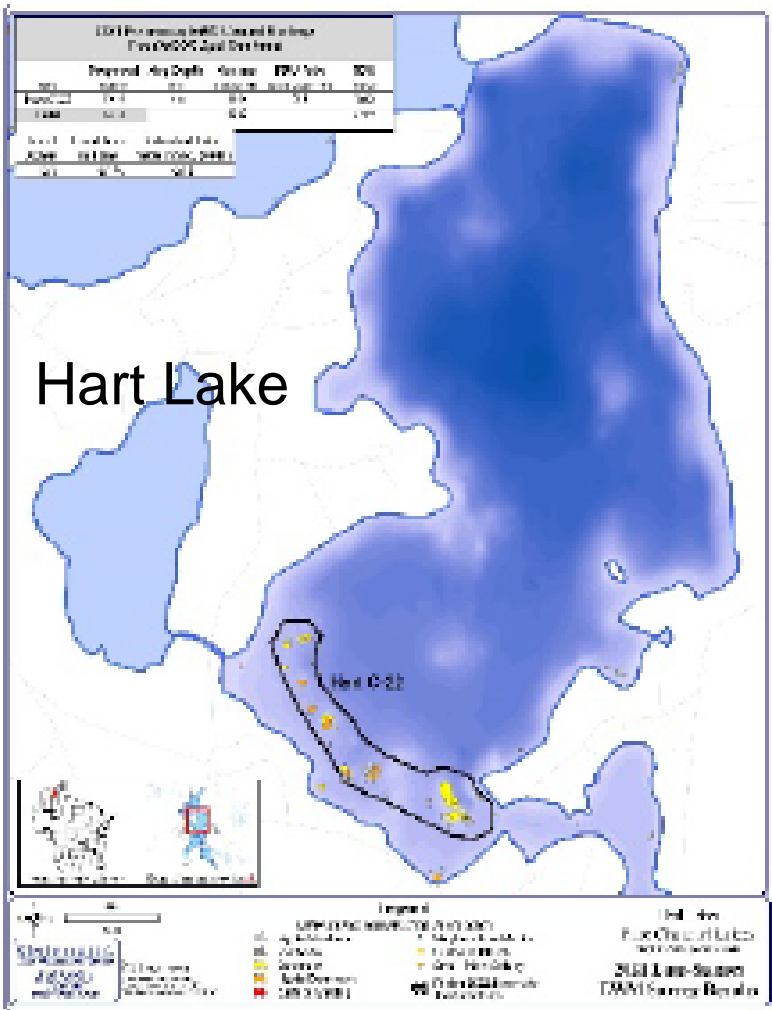

Dale Dressel
Northern Aquatic Services

Treatment Areas

This hand-drawn page was used for the mailing 3/25/22 since it was easier to view when printed in black and white for the mailing.

This page was not mailed 3/25/22 to property owners, tribal representatives or the DNR since was hard to read in black and white. Since you are viewing this on the www.pikechain.org website, it is included with the original 3/25/22 mailing.
